

Apprentice Aircraft Maintenance Engineer

Aviation Australia has a rare opportunity for an Apprentice Aircraft Maintenance Engineer - Mechanical or Avionics, to join the Brisbane team.

Aviation Australia is a world class, Registered Training Organisation, and a CASA, GCAA and EASA authorised Maintenance Training Organisation. An apprenticeship with Aviation Australia would provide you the opportunity to train in a vibrant environment while gaining valuable work experience with a globally respected aviation training provider.

As an apprentice, you will be given the opportunity to develop your skills in accordance with Certificate IV Aeroskills stream whilst completing maintenance tasks (avionics or mechanical) in Aviation Australia's approved maintenance repair organisation. Aviation Australia's values are Working Together, Being Accountable, Acting Innovatively and Delivering on Customer Needs. Our dedicated team operates with unparalleled commitment to 'Excellence in Aviation Training'.

Are you the right person for this opportunity? The successful applicant will have:

- A recognised qualification, acceptable to Aviation Australia, that demonstrates successful completion of an approved theory course in Certificate IV in Aeroskills – in your relevant trade stream.
- Knowledge and understanding of Aviation Australia and the Certificate IV theory training program.
- Demonstrated ability to perform a range of basic hand skills i.e. drilling, filing, soldering, using applicable basic hand tools correctly referring to relevant approved documentation.
- Ability to achieve superior interpersonal and customer service skills whilst also displaying a courteous and professional manner at all times.
- Excellent written and oral communication skills with high attention to detail and accuracy.
- Demonstrated ability to resolve issues through negotiation and consultation with other team members.
- Demonstrated commitment to a safety culture.
- Strong computer literacy skills with proficiency in Microsoft Office suite of applications and the ability to become a proficient user of new computer systems.
- Enthusiastic, energetic and motivated approach to work.
- Emotionally resilient in a fast-paced teaching and assessment environment.
- Ability to interact with people from diverse cultural backgrounds, displaying awareness of cross-cultural communication issues.
- Willingness and ability to demonstrate initiative and accept responsibility.
